Motor Association Of Value to Members

The Alberta Motor Association is the successor to the automobile club of northern and southern Alberta, which were foremost factors in securing constantly improving motor vehicle legislation during the last few years, and which brought powerful influence to bear in the province for the improvement of highways, and the inauguration of a system of road travelling. The provincial association is carrying on the same campaign in a much wider field, maintaining tourist camps and information bureaus at Edmonton and Calgary, giving hotel, garage and road services, and in many other ways looking after the interest of members primarily, but providing as well a public service that benefits the province as a whole.

One of the outstanding objectives now engaging the immediate attention of the A.M.A. leaders is the securing of a \$50,000,000 federal grant for Canadian highways, and the inauguration of a \$10,000,000 road building campaign in Alberta. Both these objectives are of direct importance to every citizen of the province and deserve and need the active support of all automobile owners in particular.

Officials of the A.M.A. are not a little proud of the fact that the club, though one of the youngest, has the lowest membership fee of any club of the kind in the world, providing excellent service, the cost being actually below two cents a day, though free towing and mechanical service is given and an official magazine sent monthly to each member. Affiliation with the American Automobile Association, with more than 900 clubs, bring direct

benefit to all members touring in the United States.

Seven principal reasons are given by the executive as to why ever car owner in the province should be a member of the Alberta Motor Association, all of which are worth pondering over. These are: Free towing service; free mechanical aid; free road information; free maps; better highways; faster development, and a direct and indirect benefit at home and abroad from publicity.

The direct revenues received by Dominion and Provincial Governments from the forests in the form of rentals, royalties, stumpage charges, etc., amount to \$15,000,000 annually. In Europe it has been found that increased expenditure on modern protective methods has always been followed by a much more than proportionate increase in revenues.

Even thieves have become thoroughly modernized, if one is to judge by the constant attacks on premises in big cities and the frequency of their success. In Montreal three successive burglaries occurred in the same vicinity in three days.

The world's series between the National and American leagues in the United States is the big sporting event looming in the near future. The New York Yankees have already won the American league pennant, and Pittsburgh is leading the National league. The first game of the series is scheduled for October 6th.

U.S. Government experiments in Wyoming show that the use of a furrow drill on dry or blowy soils gives decidedly higher wheat yields over the common drill. The average yield for four years with the furrow drill was double that of the common drill.

Threshing Days Are Busy Days!

Our Ten Years' Experience in this district is at your service. Your Cook Car Wants will be well looked after at this store.

Campbell's

"Where They All Go."

Gene Tunney is still champion of the world in pugilistic circles and once again it has been demonstrated that it is difficult for an athlete to come back once he starts slipping. There seems to be only one thing to regret and that is that there is any room for any kind of a protest in regard to the decision of the judges. This is a natural result of ten-round fistic contests, where both contestants are on their feet at the end of the battle.

Recent weather conditions have led to fears for the root crops, a repetition of last year's loss leading many to hurry the removal of vegetables to the cellar. Up to date, how-

ever, no damage of any kind has occurred and those who were unable to take time to look after crops of this kind may be the best off in the end.

After being closed for nine days owing to the presence of infantile paralysis in the town, the Graman schools were reopened on Wednesday.

SELF-MADE MAN

A small town editor in California retired last week with \$100,000. He worked hard, helped people, sponsored worthy causes, set a good example in his community, lived an honest life, was a kind husband and indulgent father and then found oil in his back yard.

THE CHAMPION CHRONICLE

THURSDAY, SEPT. 29, 1927

Be Careful of Fire

In a circular letter sent out by the Chief Fire Inspector from Edmonton, it is pointed out that owing to the luxuriant growth of vegetation during the past summer it is desirable to warn all concerned of the danger to farm property from fire, and also the loss involved should fire burn over the range country.

Below is published a summary of the regulations in this connection and it should be necessary to emphasize their strict observance during the fall when, with the tremendous growth of grass and weeds, and the very heavy stubble, fire getting at large might prove very disastrous. At this time of the year, too, there are many men in the country to whom the extreme danger of carelessness with matches, cigarettes, etc., is not apparent until the damage is done.

The regulations with reference to three-throw engines are widely known and those in charge are well acquainted with the necessary precautions. In consequence these are not published in detail:

Note particularly that it is unlawful to—

Kindle a fire and let it run at large. Kindles, or be party to kindling, a fire for coupling or branding purposes, and leave it unextinguished.

Kindle a fire for the purpose of clearing land, burning stubble or brush, unless the land on which the fire is started is properly fire-guarded and watched during the whole period of its continuance (before the first of May a fire-guard must not be less than ten feet in width, after that date not less than twenty feet in width).

Neglect or refuse without lawful excuse to proceed to a fire when ordered to do so by a fire guard.

To operate a three-throw engine unless the requirements of the Act in that respect have been complied with.

High Priced Hail Insurance

The announcement that the Municipal Hail Insurance rate in this district will be eighteen per cent this year, will not only come as a surprise to those who availed themselves of this method of insurance, but will almost certainly divert the bulk of the insurance to line companies in the future. The fact that in a period of years the municipal insurance has had a fair average will largely be lost sight of in contemplating this enormous levy. According to the statement issued practically one half of those who insured made claims for losses. This would lead to the inference that only those living in districts subject yearly to heavy losses are availing themselves of the protection afforded by municipal insurance. The popularity of this class of insurance has been largely due to the fact that cash was not necessary at a period of the year when cash was scarce. The possibility of a levy as high as that of this year will make the average farmer very shy of this mutual insurance on its present basis.

No Need For Panic

A New York physician is of the opinion that there is no reason for unnecessary alarm over what has the appearance of an

epidemic of infantile paralysis. He claims more children are killed by motor cars annually than die from that disease. It need not be assumed, however, that this physician suggests that every precaution should not be taken to protect the children departing this life from either cause.

NOTES AND COMMENT.

According to the New York Times the next big light will be a motor war, and in reply to the query: "Can Henry Ford Come Back?" says:

"All the reports agree on the severe course of training he has been going through in preparation for the Battle of the Century. Factory plants have

been ripped up and rebuilt, scores of millions of dollars spent in retooling, \$40,000,000 spent according to the latest report, on rubber plantations in Brazil. And the present champion, the debaucher newcomer Chevrolet, is far from idle. He is reported to have worked out more than one defence against the challenger's tactics. Price cut against price cut, new model against new model, nothing is left to chance. If Henry Ford leads with three shifts and four-wheel brakes the champion is already set to meet him. If Henry Ford springs a surprise in the form of cylinders, the champion has a six-cylinder of his own in reserve.

"Mr. Tex Rickard himself might pay tribute to the skill with which public interest has been whipped up for the imminent clash of the motors. Especially with regard to the challenger the suspense is growing terrible. We hang on the fragmentary hints and the bold guesses that drift out from the Detroit training camp. What Mr. Rickard will no doubt envy is the size of the audience, numbering presumably 115,000,000 people in a stadium 3200 miles long by 1500 miles wide."

From Montana comes a report that the old chiefs of the Cheyenne tribe are warning the young men to lay in a good supply of hay for their cattle this winter. They point out that a certain kind of bunch grass is going to seed, which, to them, is a sure sign that a hard winter is coming. In the old days Indians used to move south to a warmer climate when the bunch grass seeded, but when it did not go to seed the Indians took it as a sure sign of an open winter to follow.

Featured by an exceptionally attractive cover design, the first of a series of outdoor paintings from the brush of the well known Canadian artist, Major Allan Brooks, the October of Rod and Gun and Canadian Silver Fox News has just been published. The issue contains many interesting

EXCLUSIVE

Willys-Knight with its Exclusive Sleeve Valve Motor is now obtainable at NEW LOW PRICES

The Willys-Knight sleeve valve engine is patented, protected, exclusive. The sleeve valve engine is the world's most advanced, most reliable, most powerful with use. An engine that other car manufacturers would gladly pay millions of dollars for the privilege of using.

Because of its simple sleeve valve construction, there are no valves, no valves grinding, no springs to weaken, nothing to adjust, nothing to replace or repair.

And now Willys-Knight's exclusive feature—providing the older style most desirable used on other cars.

Willys-Knight is a notable, flexible chassis absorbing, rubberized fabric—absorbs road shocks, cushions the whole car, keeps the chassis permanently silent, and eliminates wear.

These advantages plus the comfort of the magnificent built chassis—the rapid luxury of line and finish—the richness and completeness of equipment—make the Willys-Knight the most advanced of today's motor cars. The new and wonderfully low prices make them the greatest values that have ever been offered in quality automobiles.

May we arrange a demonstration?

Local and General

Mrs. G. A. Manhard was a tea hostess on Thursday, Sept. 22, to a number of friends.

Miss Ethel Cowell, of Lethbridge, spent her holidays visiting her parents and other relatives in Champion and vicinity.

Remember the Tom Copeland entertainment, under the auspices of the Ladies' Aid, on Oct. 10th. The Ontario press describes him as a second Harry Lauder.

Mrs. C. Cowell, Mrs. M. G. Clever, and Misses Ethel and Katherine Cowell, attended the recital given by Miss McGillivray at Lethbridge, making the trip by auto.

The only sign of a freak bet on the Tunney-Dempsey fight seen in this vicinity was the fact that Charlie Anderson did not shave for some days after the event, and it is rumored he was backing Dempsey.

While wheat from the combines has largely graded tough as well as the small amounts threshed, mostly in trying outfits, with steady weather it is anticipated the bulk of the wheat will grade well, as the grain is plump and of good color.

E. P. Ulsten also received a pair of Headlight Overalls from Joplings store, being the first to deliver a load of 1927 spring wheat to a Champion elevator. This was in addition to the ham received through the Champion Meat Market.

Pay Village Taxes Before October 9

October 9th will be the last day on which discount will be allowed on current Village taxes.

MISS RUBY GRAHAM

Teacher of Pianoforte wishes to announce the opening of a class in Champion at the home of Mrs. G. M. Campbell, Phone 78. Anyone desirous of enrolling kindly communicate with her any Saturday at the above address.

Striking Beauty at Lower Prices

YOU have seen the New and Finer Pontiac Six on the road! Your attention has been arrested by its beauty of line—by its modish Duco colorings!

But a closer scrutiny of Pontiac Six will reveal details of beauty and refinement beyond your highest anticipation.

For Pontiac is the Lowest Priced Six in the world to offer the exquisite artistry, the enduring craftsmanship and beauty of "Bodies by Fisher"—to provide a rugged six-cylinder engine of power and performance proved on the General Motors Proving Ground.

Now, Pontiac Six incorporates new items of distinction, such as rich plush upholstery and luxurious interior appointments—at New and Lower Prices.

CHAMPION, ALBERTA

PONTIAC SIX

PRODUCT OF GENERAL MOTORS CO. OF CANADA, LIMITED

Weather Conditions Very Uncertain

Threshing began in earnest on Tuesday and Wednesday, when a large number of outfits started up. There is still a large amount of grain to be cut and a considerably larger amount to be stacked. The shortage of men will continue for some days, at least, until all

other harvesting operations are completed except threshing.

The above was a fairly correct summary of the situation until noon on Wednesday, when rain interfered. It would require a twice a day edition to keep pace with the kind of weather we are getting.

Hallowe'en Dance October 28th

The annual Hallowe'en dance under the auspices of Champion Women's Institute will be held on Friday evening, Oct. 28. This dance has always been one of the most popular events of the kind held in Champion, and the ladies in charge this year hope to eclipse all former successes. Don't forget the date.

The little epidemic of chickenpox seems to have been confined to very close limits and with no new cases making their appearance no further trouble is anticipated. At the time of writing there has been no further cases of scarlet fever, except the original one.

Mrs. Clyde Carr, Washington woman, exercised her woman's prerogative and had her locks shorn. Her enraged husband spanked her. "No man should become resentful when his wife has her hair bobbed without taking him into her confidence," said the judge when he sent Carr to jail for six months. When will married couples learn that there are individual rights even marriage does not abridge?

While harvesting operations were at a standstill over the week-end owing to rain and a slight fall of snow, Monday morning dawned bright and clear, and as the total precipitation was slight, falling a change back to unfavorable weather, there will be but a short delay in the resumption of work of every kind.

Drumheller is still working on the reduction of coal rates to the east, despite the very adverse decision of the railway commissioners. Sticking to it may ultimately bring success, even if the present outlook is unsatisfactory.

McCLARY'S FURNACETTE Provides Winter Comfort

You can only heat your home when you get the air circulating.

McClary's Furnacette functions just the same as any furnace, yet save you the labor of digging a cellar and cost of installation.

It will heat a 5 or 6 room house perfectly.

It gives an even temperature in all rooms.

It has a water pan, which provides clean, healthy, humidified warm air.

It has a heavy cast iron dome, and is built to last. It holds fire over night without trouble.

It stays hot long after the fire has been checked.

It is encased in an all steel, porcelain enamelled cabinet, which makes it an attractive piece of furniture.

If you need a Furnacette let us know so that we can deliver it when you want it.

Leave your order with us as early as possible.

5205 Whippet Drivers Establish Record in Nation-Wide Economy Test

Forty-four and eight-tenths miles on the gallon of gasoline is the economy record established by 5,205 Whippet drivers during "Economy Test Week" recently held by Whippet-Overland dealers throughout the country to demonstrate the efficiency, economy, power, speed and stamina of this famous car.

Each car used in this test was a regular stock model Whippet. The test was "open to everybody." Before each test was made the fuel tank was sealed, and the driver then went as far as he could. In several

instances more than 40 miles to the gallon were secured.

Never before has any car made a record like this. Never before has any car so convincingly demonstrated its economy. "40 miles on a gallon," 4-wheel brakes and outstanding performance have made the Whippet Canada's most popular light car.

real message for you.

The "Want" column, too, is
well worth looking over regularly. There is always something
lost, found or for sale that will
interest you.

And when answering adver-
tisers, don't forget to say you
saw saw it in

THE CHRONICLE

Local and General

Sletto Bros. thrashed two days last
week before being stopped by the rain.
From information received both yield
and grade of grain promises to be
highly satisfactory.

The central selling agency of the
wheat pools handled 189 million bushels
of wheat in 1925, and a total of
480 million bushels of wheat and 10
million bushels of coarse grains since
the pools were formed.

There was a decided falling off in
the exports of flour in 1926 as com-
pared with 1925. If estimates of the
1927 crop are anywhere near the
mark, there should be a big increase
in exports this year.

The Calgary Fall Stock Shows and
Sales will be held from November
1st to 4th, show entries closing on
October 22nd and sales entries on Octo-
ber 1st. Girls' and boys' lamb and
pig feeding competitions will be fea-
tures of this year's event.

Among visitors in town this week is
T. B. Woodhull, of Hartney, Manitoba,
father of the editor of the Chroni-
cle. Since his last visit some three
years ago he finds many evidences of
progress here, the electric lights be-
ing, perhaps, the most noticeable.

K. R. McLean, optometrist and op-
tician, of 212 Herald Building, Cal-
gary, will visit Champion regularly
once a month in future, his first visit
being made last Thursday. The date
of his next trip here will be adver-
tised in The Chronicle.

Lon Chaney, The Man of a Thou-
sand Faces, achieves his greatest tri-
umph now as a sinister Chinese man-
darin. A masterly exhibition of act-
ing—a strange, thrilling romance of
East and West—a glamorous, colorful
production, with all the allure of the
Orient. See Mr. Wu.

One of the busiest men in town
these days is George Taylor, general
manager of the town dray line. The
amount of goods and supplies George
is moving these days is remarkable,
to say the least. More teams and
equipment will be necessary if the
rush lasts much longer.

Although many men have been re-
leased during the last few days by
those who have completed the cutting
and stooking of their grain, there
does not appear to be much change
in the situation so far as the general
supply goes. Many are still unable
to secure sufficient help, and the gen-
eral beginning of threshing promises
to further complicate matters.

The sinister shadow of Mandarin
Wu, the merciless ruler of the Orient,
stepped in between the romance of
the East and West. Lon Chaney will
sweep you off your feet as the mysteri-
ous Wu in this dramatic sensation. Renee Adoree will touch your heart
as the young flower of old China!
And what a supporting cast!

The crop report published recently
by the Winnipeg Free Press affords
many features which could not fail to
please residents of Alberta. Perhaps
the most outstanding of these is the
difference in the yields of wheat, oats,
barley, rye and flax. In every in-
stance Alberta yields are higher and
in wheat the difference is extraordinary,
jumping from 16 bushels in Mani-
toba and 16 1/2 in Saskatchewan to 28
bushels per acre in Alberta.

E. P. Ulfsten kind of stole away
with the record of bringing in the
first load of wheat threshed from the
1927 crop. Usually this event is
sufficiently advertised by the elevator
men to prevent anyone being in the
dark as to the happening, but in this
instance absolute quiet was main-
tained, so that even the donors of
prizes for the individual making the
delivery were unaware the contest
had been decided.

Goods Coming In By the Car Load

McCullough Bros. will have
delivered early this week one
car of McIntosh Red Apples and
one car of Groceries. These are
all for harvest requirements and
will be sold at special
prices.

Stanfields' Underwear for Men in All Weights is Stocked at This Store!
